Wen

D8-64

So Safe!
So Ruggedly Built!
So Versatile!

It could be the only saw you'll ever buy!

The sensational new Wen variable speed Scroller-Sabre Saw.

The world's most modern saw!

WEN

Double insulated variable speed Scroll-Sabre Saw—with blade that turns to follow your exact line of cut, making intricate pattern cuts in wood, plastic, leather, metals, even steel

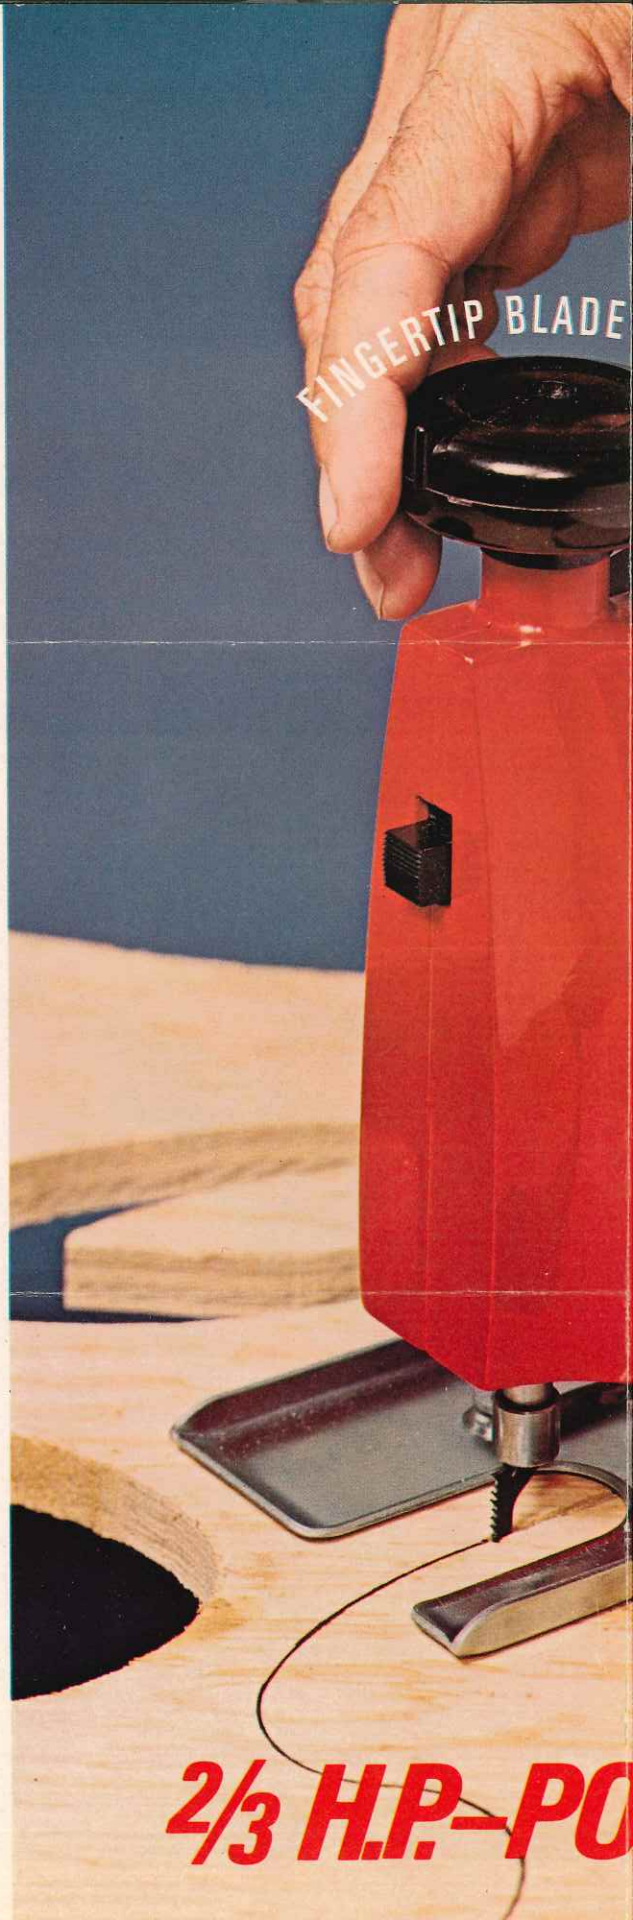
Just turn the blade — not the saw — to change direction of cut. Special blade holder rotates a full 360° — locks in 4 positions — 0°, 90°, 180°, 270° — to make "impossible" cuts possible. With continuously variable "Mind Reader" switch you have the right speed for every job, from 0 to 2800 powerful 1″ long strokes per minute.

Super-powered 4-amp. 2/3 H.P. heavy duty unitized constructed motor has the heft and power to make smooth, effortless, accurate cuts in almost any material. Zips through 6″ logs, cuts 4x4's at a 45° angle. Cuts all woods, metals from thin gauge to 1/2″ thick (even 2″ pipe), Bakelite, Formica, plexiglas, plaster board, rubber, leather, linoleum — practically anything.

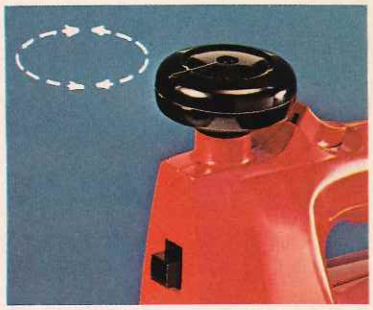
Unbreakable Housing/Guaranteed for Life—double insulated and shock-proof — needs no adapters. 2-wire cord plugs into any AC outlet.

Versatile — extra-large shoeplate adjusts right or left to cut at 45° angle. Adjusts forward for plunge cuts to start its own hole. Adjusts backward to make flush cuts. Cuts perfect circles with circle gauge. **Makes accurate line cuts** with calibrated rip guide.

It's more saw for the money than any other yet made. Takes the place of crosscut, hack, coping, circular, reciprocating (jig), sabre, keyhole and band saws. And it includes 7 blades to handle any cutting task.

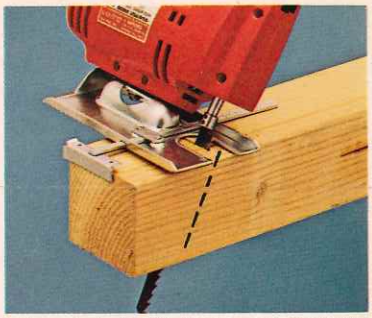


does so many jobs easily you can tac virtually any cuttin



Fingertip Blade Control turns 360° — locks in 0°, 90°, 180°, 270° so you can cut in any direction.

Starts Its Own Hole — unique shoe-plate enables it to start its own inside cut anywhere you want.



Cuts a 4x4 at 45° Angle, left or right. Cuts 2x4's, 4x4's, 6x6's at 90° angle.

INCLUDED: 7 Blades — each designed to do a specific cutting job

PLUS — Rip Guide and Circle Cutter

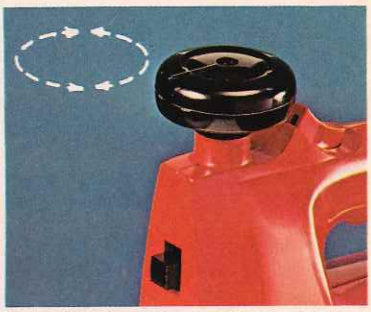
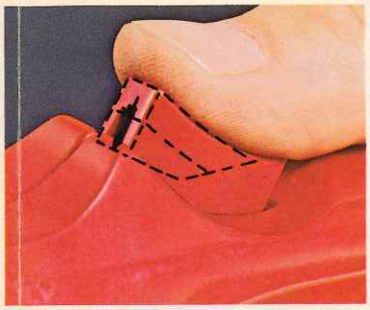
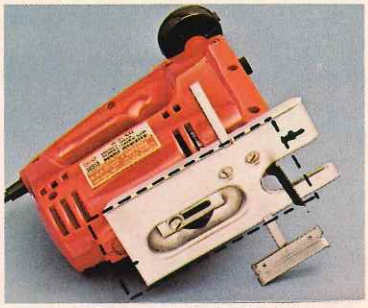
REPLACES THESE SAWS



Fingertip Blade Control turns 360° — locks in 0°, 90°, 180°, 270° so you can cut in any direction.



Variable Speed "Mind Reader" Switch As you apply thumb pressure, automatically adjusts speed.

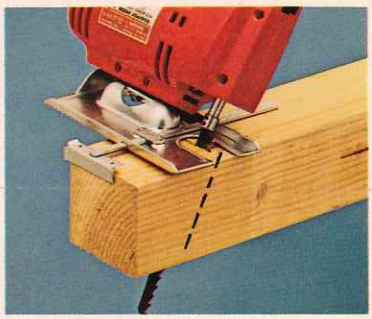


Adjustable Shoeplate — adjusts to 45° right or left, adjusts forward for plunge cuts, back for flush cuts.

Starts Its Own Hole — unique shoeplate enables it to start its own inside cut anywhere you want.

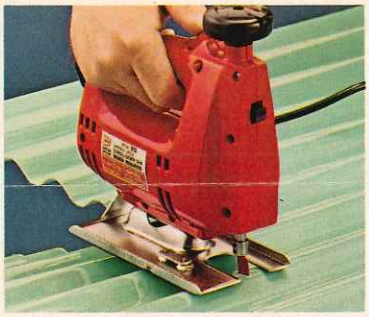
Makes Flush Cuts in floors, walls, even corners, as easily as a keyhole saw, with many times the power.

Circle Gauge cuts curves and perfect circles easily.



Cuts a 4x4 at 45° Angle, left or right. Cuts 2x4's, 4x4's, 6x6's at 90° angle.

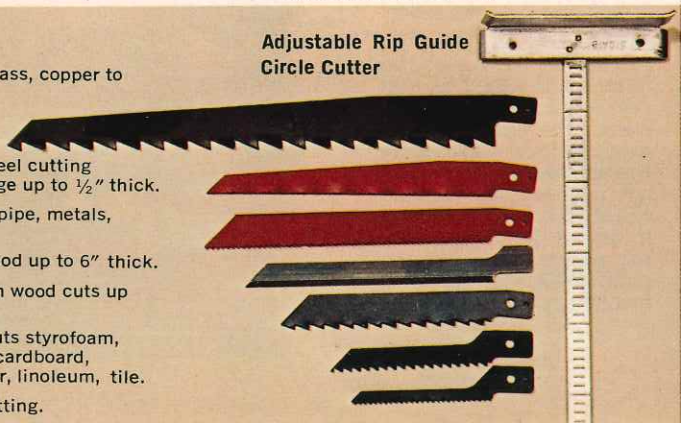
Adjustable Rip Guide is calibrated to make long, straight line cuts easily, accurately.



Air Stream Clears Work Path — keeps dust cleared away so you can see where you are cutting.

INCLUDED: 7 Blades — each designed to do a specific cutting job

PLUS — Rip Guide and Circle Cutter



Aluminum, brass, copper to ½″ thick

High-speed steel cutting from thin gauge up to ½″ thick.

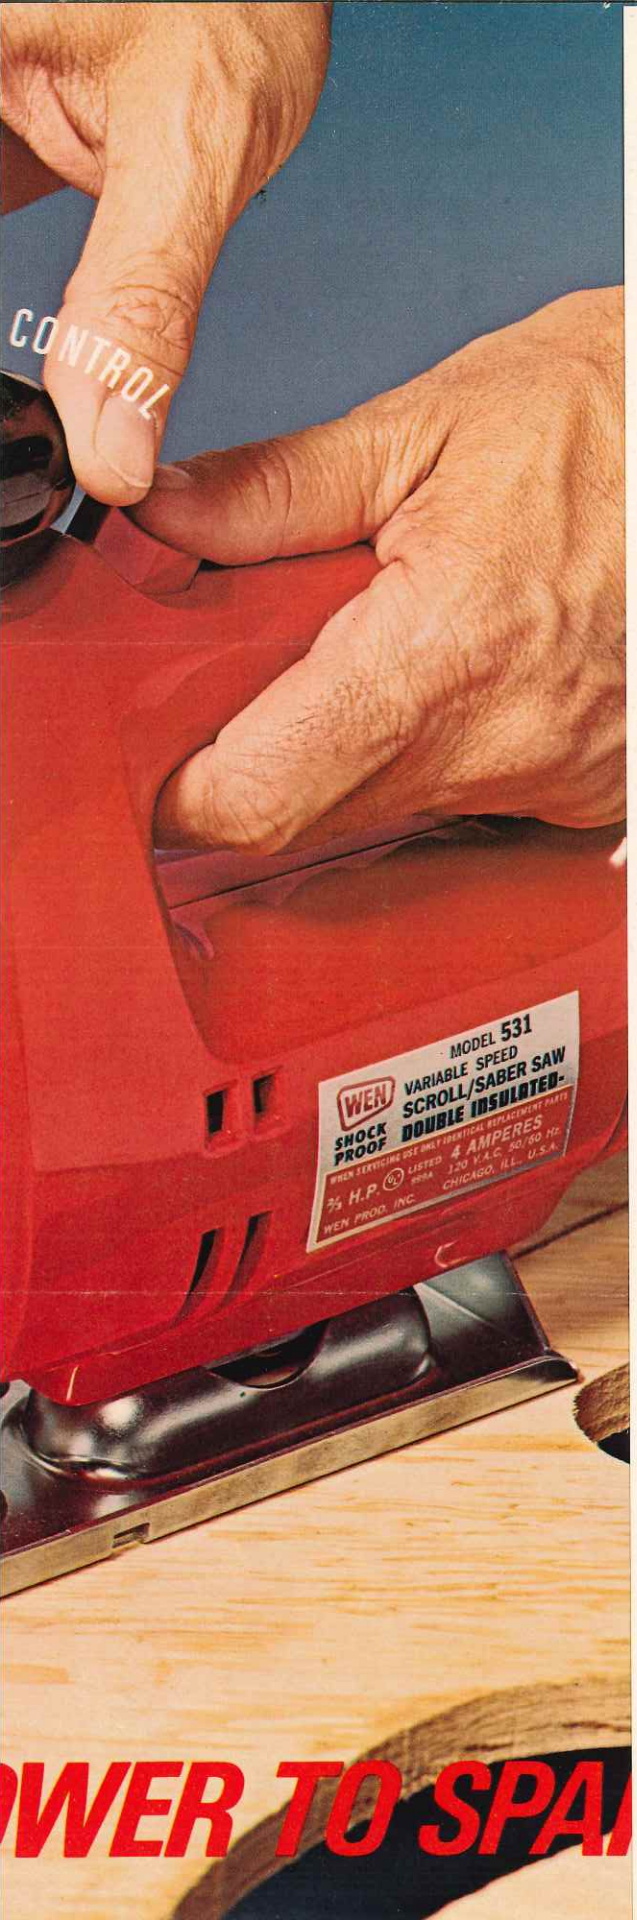
Cuts up to 2″ pipe, metals, fine woods.

Cuts rough wood up to 6″ thick.

For fast, rough wood cuts up to 2″ thick.

Knife blade cuts styrofoam, foam rubber, cardboard, rubber, leather, linoleum, tile.

Fine scroll cutting.



Compare!

This Wen Scroll-Sabre Saw has safety, endurance and versatility features never before available at this low price!

SHOCK-PROOF — double insulation electrically isolates the entire works from any exposed metal outside of its housing. Assures you of utmost electrical safety, without the need for a 3-prong plug.

UNBREAKABLE HOUSING—

Entire tool is insulated by advanced design, high impact unbreakable housing that is *guaranteed* for *life!* Perfectly balanced, lightweight (only 5 lbs. 2 ozs.) construction permits easy handling, maneuverability and complete control, even when doing intricate scroll cuts.

"MIND READER" VARIABLE SPEED SWITCH—

Automatically varies the torque and speed as you cut. Practically "reads your mind." The secret is in the magic switch — just apply thumb pressure as you cut, get continuously variable speed from 0 to 2,800 powerful 1-inch strokes per minute. Have just the right power and speed to handle any cutting job!

UNITIZED CONSTRUCTION

An exclusive Wen Engineering Development. Highly efficient burn out proof power unit mounted on sturdy die cast metal frame.

The gear train and saw mechanisms are mounted on frame insuring reliable mechanical stability.

Entire functional unit encased in electrically insulated-unbreakable housing insuring safety from electrical shock hazard, using only 2 prong plug which can be plugged in anywhere.

Blade Control Rotates 360°, locks in 4 positions, 0°, 90°, 180°, 270° to cut in any direction.

Variable speed "Mind Reader" switch varies torque and speed automatically from 0-2800 SPM.

Switch locks in 2 "On" positions — intermediate or full speed for continuous, heavy duty use.

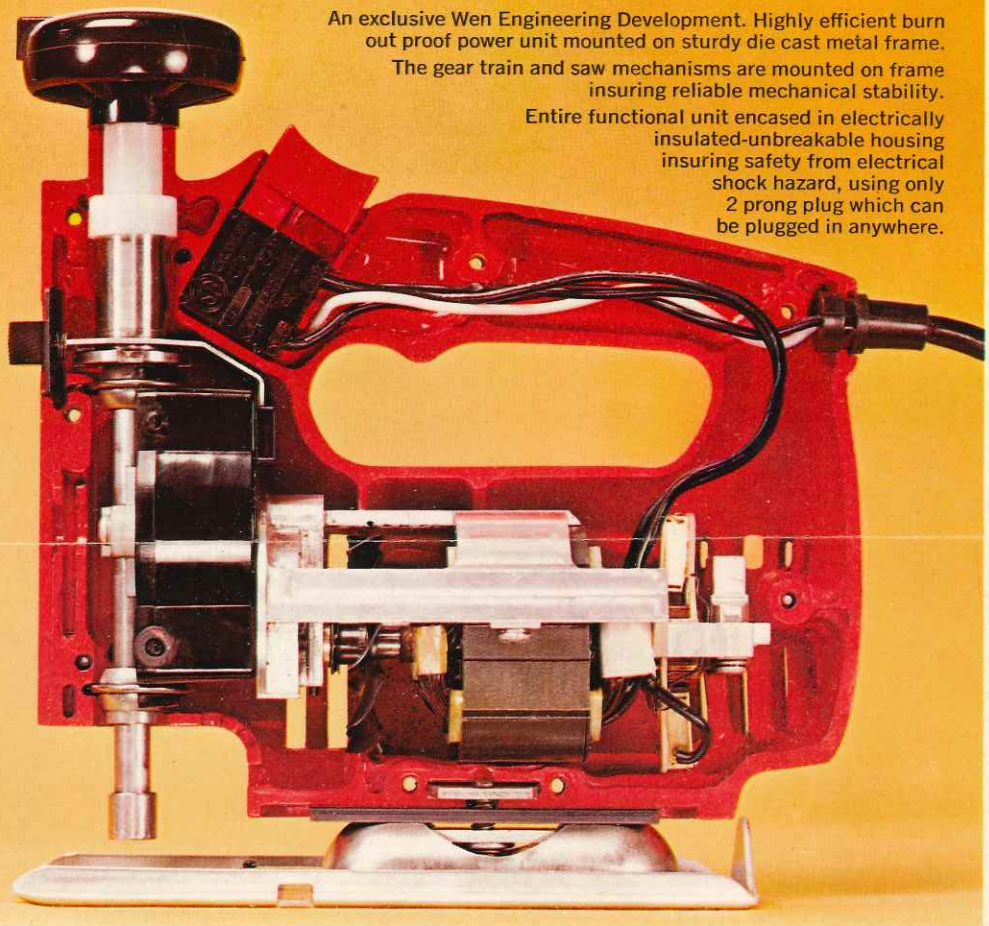
Unbreakable housing, guaranteed for life!

Long-life heavy-duty hardened gears.

Lifetime lubricated bronze & needle bearings.

Powerful jet stream blower clears dust from work path.

Extra-large shoeplate for stability. Adjusts to 45°, right or left, for plunge, flush cuts.



SAFETY RATED

SHOCKPROOF! **2 PRONG PLUG LETS YOU USE ANY AC OUTLET**

Received May 30, 1973

GUARANTEE

New unbreakable housing is guaranteed for life.

Wen Scroll-Sabre saw is unconditionally guaranteed against defects in workmanship and materials for one year from date of purchase, including free repairs or replacement.
